REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed invention is deemed allowable over the prior art since the prior art fails to teach a multiplayer panel as recited wherein the core has a first plurality of curved slots extending in a first direction and a second plurality of curved slots extending in a second direction, the directions crossing at other than right angles and the first and second slots having a varying depth within said core. The prior art in the specification and cited by the examiner shows the closest prior art that contains straight slots that extend perpendicular and are not of varying depth.
